

Autoprint Labelling Systems

SQUIX are the further development of the successful A+ printers. SQUIX represent • innovative technology, • easy operation, • accuracy of impression, • reliable and fast printing, • compact, appealing design, • highest quality standards. The professional industrial label printers SQUIX can be used in a wide variety of applications. Their development is foremost focused on simple and convenient operation coupled with high reliability. The print mechanics and housings are made of high-quality materials and perfectly match in terms of shape and function. A wide range of peripherals and software enable specific customized solutions. Regardless of whether they are operated in stand-alone mode, in a PC application or in a network – the solid SQUIX printers are always up to the mark. A high-speed processor ensures fast printing processes and immediate label output.

1.2 Label printer	SQUIX 4.3		SQUIX 4	
Printable resolution dpi	203	300	300	600
Print speed up to mm/s	250	250	300	150
Print width up to mm	104	108.4	105.7	105.7

Basic versions

For printing on labels and continuous materials that are wound on rolls or fanfold. The material is separated at the jagged tear-off edge. Optionally, it can be cut or externally rewound.

Peel-off versions P

In addition to the basic version the labels can also be dispensed. The label is separated from the carrier material after the printing. It can be removed manually or by an applicator.

Squix Represents:

- Innovative Technology
- Easy Operation
- Accurate Imprint
- Reliable & fast printing
- Compact, appealing design
- High Quality Standards
